ABOUT ME

Result-driven professional with a talent for captivating designs, a passion for making a positive impact, and a continuous drive to acquire new skills and stay updated with the latest technologies. Seeking an opportunity in a forward-thinking organization to enhance expertise and contribute to its success.

PROFILE SUMMARY

Seasoned **Mobile** Application Engineer with **8+ years** of experience building scalable, high-performance **Android** apps using **Kotlin** and **Java**, alongside cross-platform solutions in **React Native** and **Flutter**, translating complex requirements into clean, maintainable code.

Expert in Android Architecture & **Modern UI**, leveraging **MVVM**, **Jetpack** components, **XML**, and **Jetpack Compose** to deliver robust, modular, and future-ready applications with high code quality.

Proven **Cross-Platform** Developer, delivering multiple production projects in **React Native** and **Flutter**, integrating **REST APIs** and responsive **UI** to accelerate product delivery.

Strong Focus on **Testing**, Performance & Reliability, implementing **Unit** and **instrumented** testing, optimizing app performance, and integrating **Firebase**, **OneSignal**, **Crashlytics**, and **CI/CD pipelines** using **GitHub Actions** for automated builds, testing, and releases.

Full-Stack Mobile Engineer, developing scalable backend services with **Node.js**, **Express**, **Sequelize**, and **MySQL**, applying modern engineering practices to support secure, high-performance mobile applications.

WORK EXPERIENCE

Visaero India | Oct 2023 - Present

Senior Android Developer

- Lead development of scalable, high-performance Android applications using Kotlin, applying clean architecture principles and MVVM for maintainable, testable codebases.
- Built modern, responsive UIs with Jetpack Compose and XML, leveraging Jetpack components for lifecycle management, navigation, and state handling.
- Implemented coroutines, Flow, and asynchronous patterns to improve app performance, responsiveness, and real-time data handling.
- Established strong unit and instrumented testing practices to ensure application stability and reduce production defects.
- Integrated Firebase, OneSignal, and Crashlytics for notifications, analytics, and monitoring, improving engagement and faster issue resolution.
- Automated builds and releases using CI/CD pipelines with GitHub Actions, enabling reliable continuous delivery and faster development cycles.
- Collaborated cross-functionally with product, design, and backend teams to deliver high-quality mobile solutions aligned with business goals.

Delphic - Client: Visaero India | Jan 2023 - Oct 2023

Senior Android Developer (Contract)

EDUCATION

Diploma (DMC) | Feb 2017 - Aug 2017

Diploma in Mobile Computing

Focused on mobile application development across Android and iOS platforms with strong programming foundations in Java and C++.

Studied database management systems, data structures, and algorithmic problem-solving for efficient app performance.

Gained hands-on experience integrating Firebase for authentication, real-time data, and cloud-based mobile solutions.

Pacific, RTU Kota | 2012-2016

Electronics & Communications

Jarsys | 2021 - 2022

Director, BA, Developer

Project management, Client handling, Kotlin Development, Multiple projects.

Marwadtech | 2017 - 2021

Founder, Developer

Project management, Client handling, Kotlin Development, Multiple projects.
